Don't let it slip away
I know you're in there somewhere
Thank GOD you still have time.

I talked until I found I could talk no more
Quite feeling to proven so ineffective
words float by watching you let go
How did reason slip away so
i can't accept it
You're able to sit at the table
No longer aware of what you're made of
you go and tell me you give in when you've got the juice to fight
Nobody is born to lose

You've got the power inside to move mountains
You know you are designed to move this mountain
'Cause when you push it babe, someone's pushing with you
So get to pushing babe and I'll push it with you

I got my mind on HIGH and my Motu fired
with a call to anybody taken low
Everybody is able to sit at the table
Nobody is born to lose

You've got the power inside to move mountains
You know you are designed to move this mountain
'Cause when you push it babe, someone's pushing with you
So get to pushing babe and I'll push it with you
So come on push it

Oh don't let this beautiful thing
Slip away right through your hands
Breathe with the light of your worth
You got the power inside to move mountains
You know you are designed
Don't let this beautiful thing get away from you now when the deal is
a struck
It's a lie to believe you have little worth
If you breathe, with your light all is never lost.
Don't let this beautiful thing get away from you now when the deal is
struck
(You're not alone with the pain you've been bleeding from)
You're not alone here. You're not alone here
(With your light, don't you know, all is never lost)
If you breathe with your light all is never lost

Don't let it slip away
I know you're in there somewhere

Thank GOD you still have time.
